

# CTS<sup>®</sup> Doorlock

- SCM approved
- Galvanised
- Locking in hasp
- Extremely suitable for revolving doors

- Abloy PL 358N padlock
- Certificate & Security card

## SOME LOCKS ARE SIMPLY CLOSED FOR COMPETITION

The CTS doorlock is durable, extremely safe and meets the requirements of the insurance companies.

Doorlock systems can be applied to the revolving doors of trailers and trucks.

A doorlock is available with or without the trusted Assa Abloy PL358N padlock: the same as we apply for many years now in the CTS container- and trailerringlock.

The Abloy padlocks are available as keyed-differently, keyed-alike or as masterkey system.

Also available on an existing Assa Abloy number.

For more information and applications please contact  
C.T.S. BV, Tel: 0031(0)183-616500, email: [info@ctsbv.com](mailto:info@ctsbv.com)
